

IMPORTANT UPDATE INFORMATION

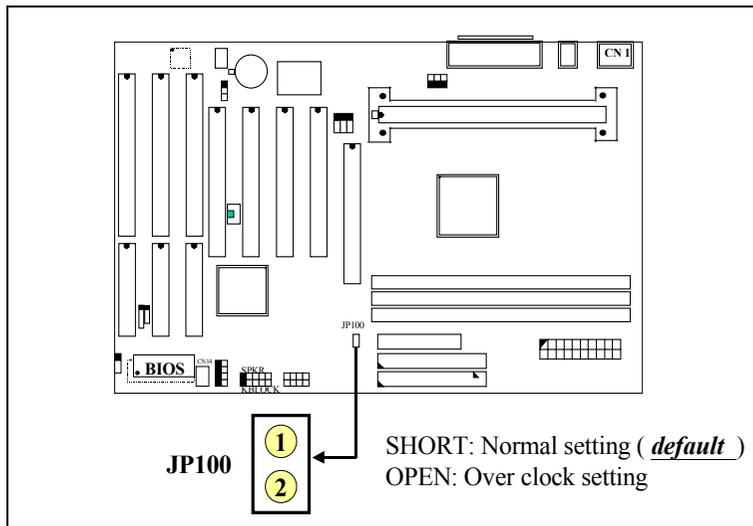

Some modification was made on the mainboard and the jumper settings are changed. Please refer to the following for the update information:

A. JP1: K/B & Mouse OnNow selection --- changed to JP11

Because of the mainboard updating, the name of this jumper was changed to JP11. JP11 and JP1 are on the same location on the mainboard and their settings are also the same as what is mentioned in the manual. Please refer to JP1 on page 3-16 for the setting.

A. JP100: Over Clock Selection (Page 3-18)

JP100 is designed on the board for some special purpose. The function of JP100 was changed and it is different to what is mentioned in the user's manual. Please refer to the following picture for the correct settings:
