To : Users of Manual VT-503

This manual have **some udpate** needed to be noticed.

1). Page 3: "Flexible Processor Support" paragraph, add "AMD K6-266 (266MHz)/300 (300MHz).

2). Page 5: "CPU Thermal Monitoring Alert (optional)", remove the last sentence "This feature requires a power supply with a soft-off power controller."

3). Page 8: Mainboard Layout, the jumper EP1, 2; CLK1, 2, 3; PWR1. The connectors CHASSIS, RPW_CON, LAN_WAKE are removed.

4). Page 9: Jumper EP1, EP2, PWR1 are removed.

5). Page 10: add 128MB (DIM1), 128MB (DIM2) to the 256MB (total memory).

6). From page 13to 20 all jumper settings about CLK1, CLK2, CLK3 are removed, because the CPU frequencies now can be set by BIOS feature.

7). Page 24, connector CHASSIS; **page 25**, LAN_WAKE; **page 28**, RPW_CON are removed.

8). From page 23 to 24:

CPU Fan Connector: CPU_FAN and System Case Fan Connector: CHAS_FAN

Add this note :

NOTE : EISCA fan, a product of PENTALPHA International Inc., is recommended. The company's phone no.: 011-886-2-866-53248. Fax No.: 011-886-2-866-53249.

In **page 24**, the connector EICA now is changed to

EISCA CPU Fan Connector: EISCA

This 2x6 pinhead is installed for your EISCA cooling fan use.

This type CPU fan is equipped with a thermal sensor. The PENTALPHA International Inc. offers this product. The company's phone no.: 011-886-2-866-53248. Fax No.: 011-886-2-866-53249.
